What might people be wondering about space?

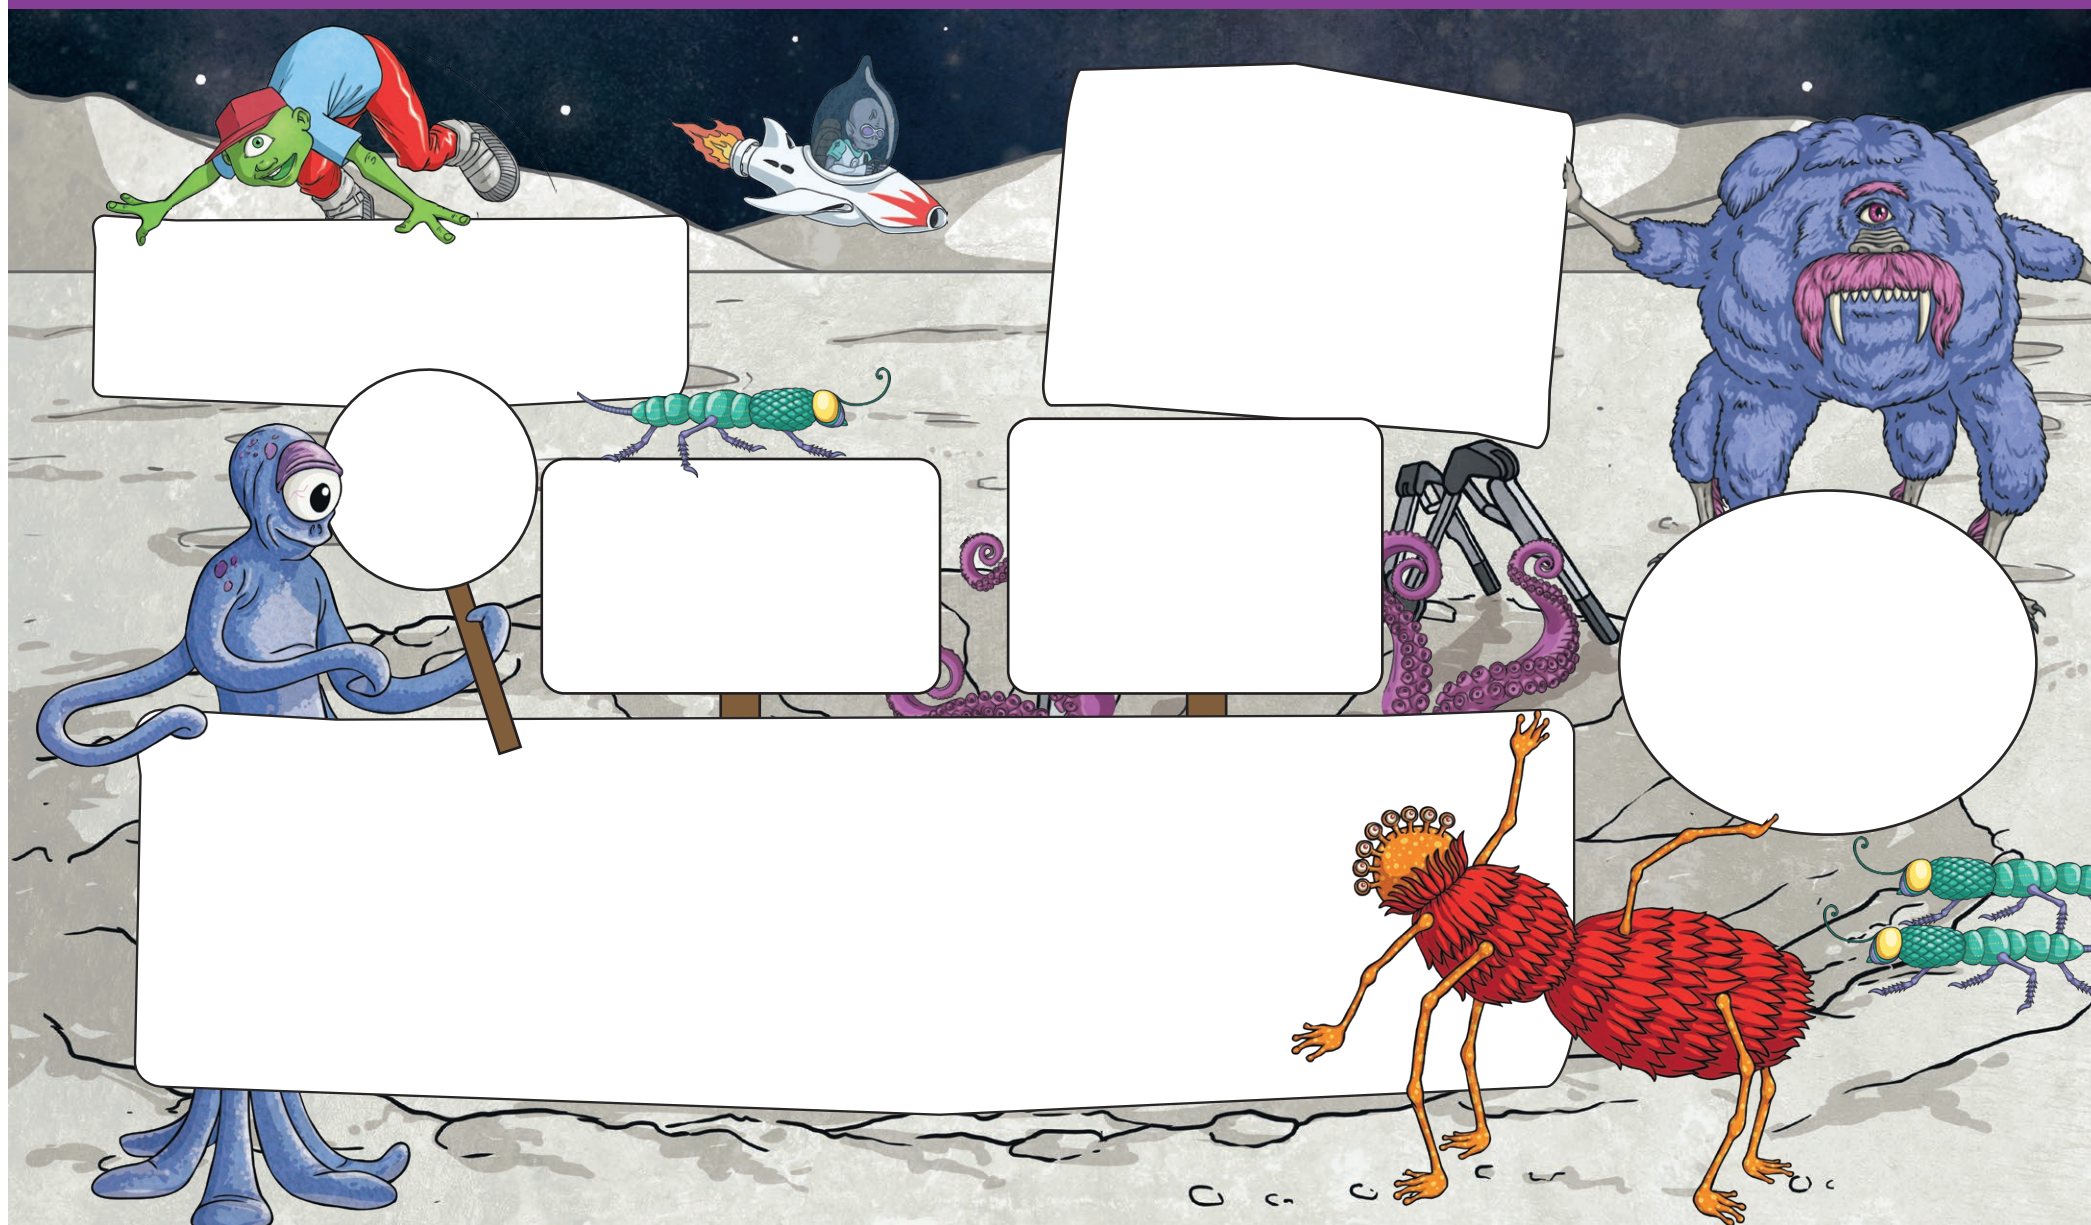

An astronaut finds a letter from their family in their luggage. What does the letter say?

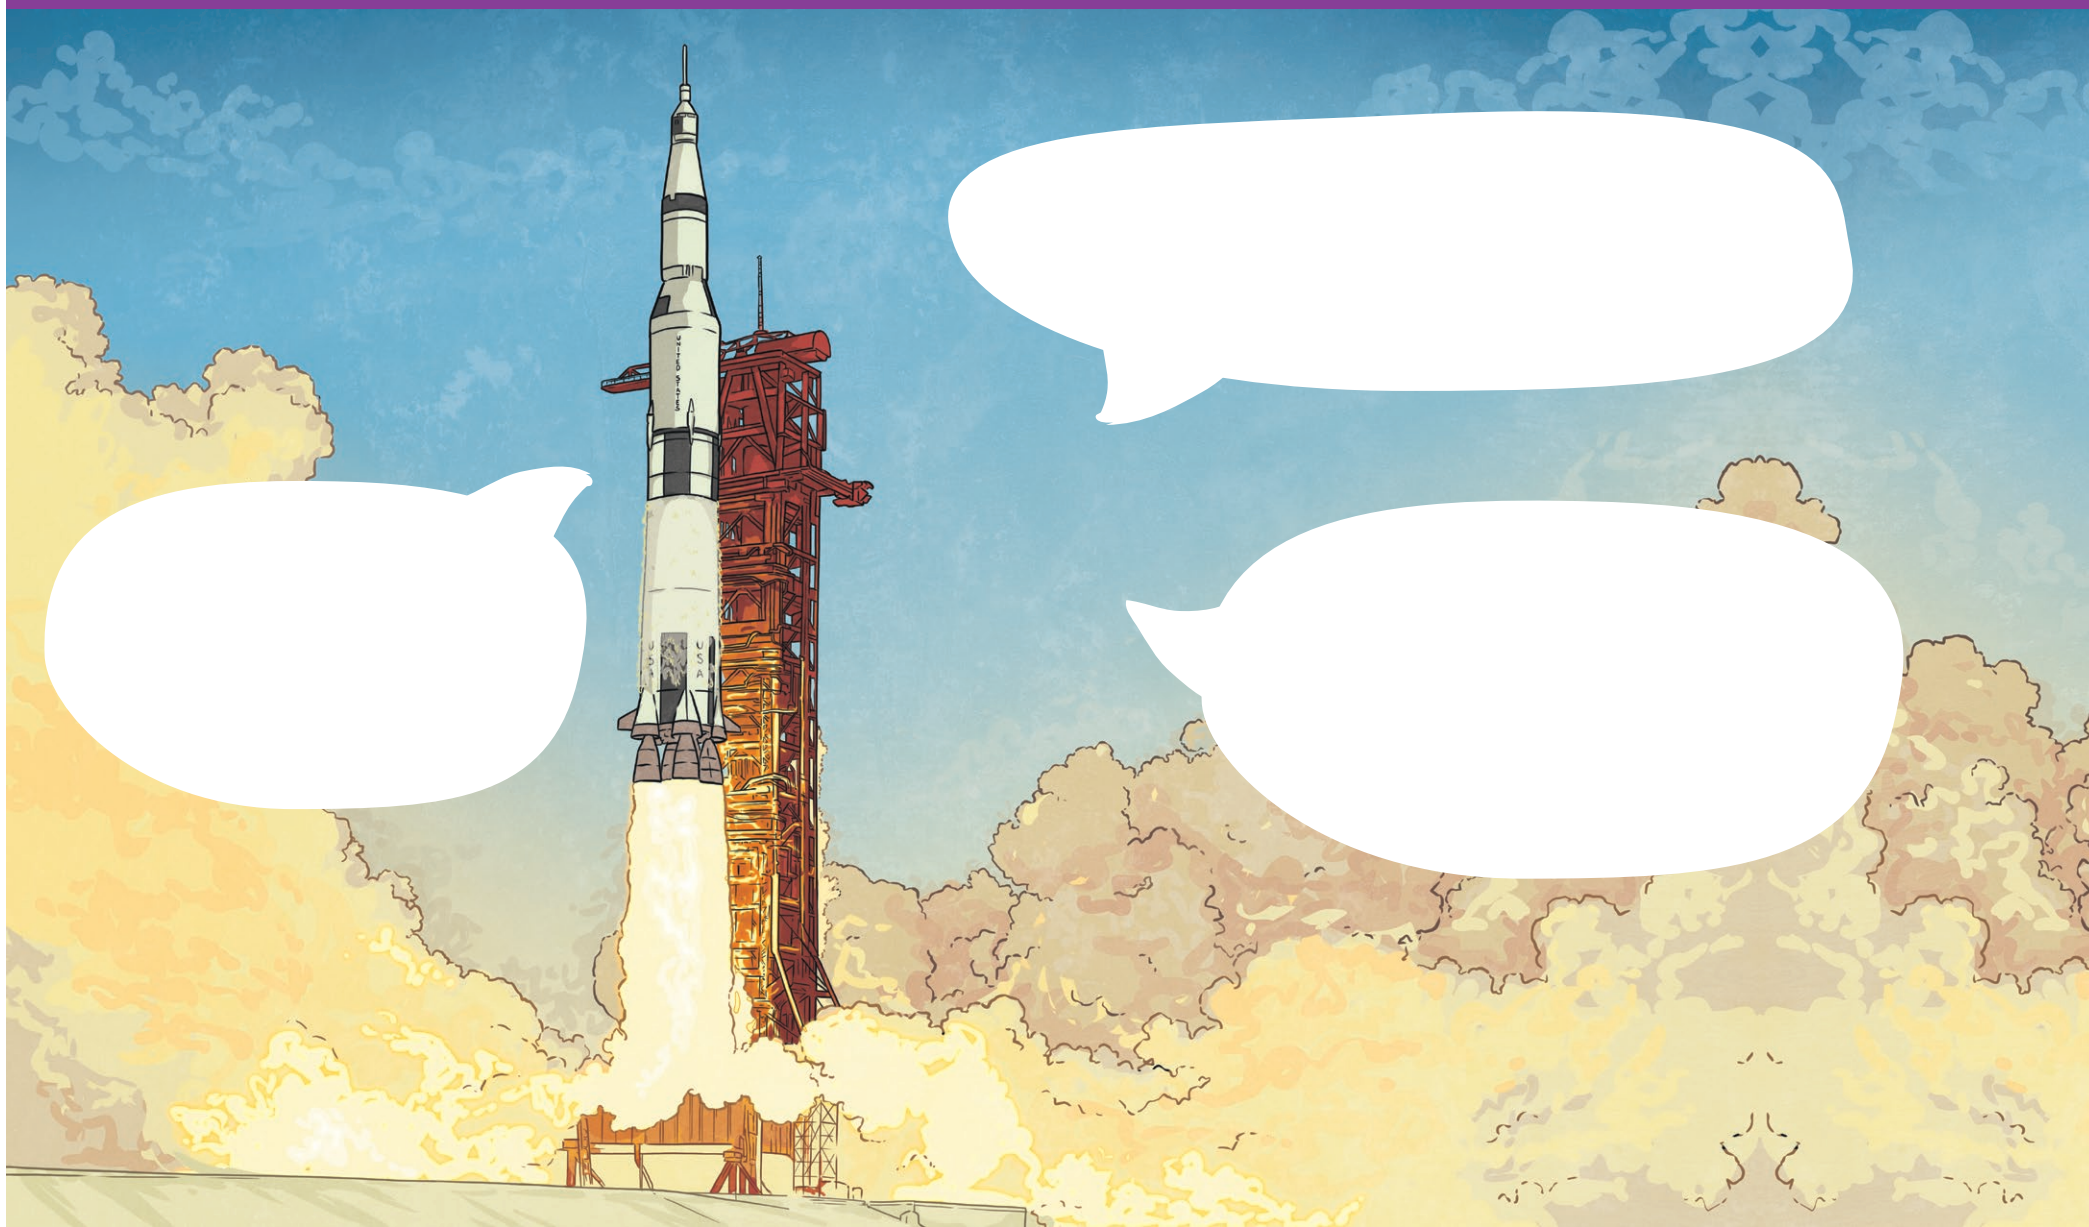

The first human astronauts are arriving on an alien planet. How might the aliens welcome them?

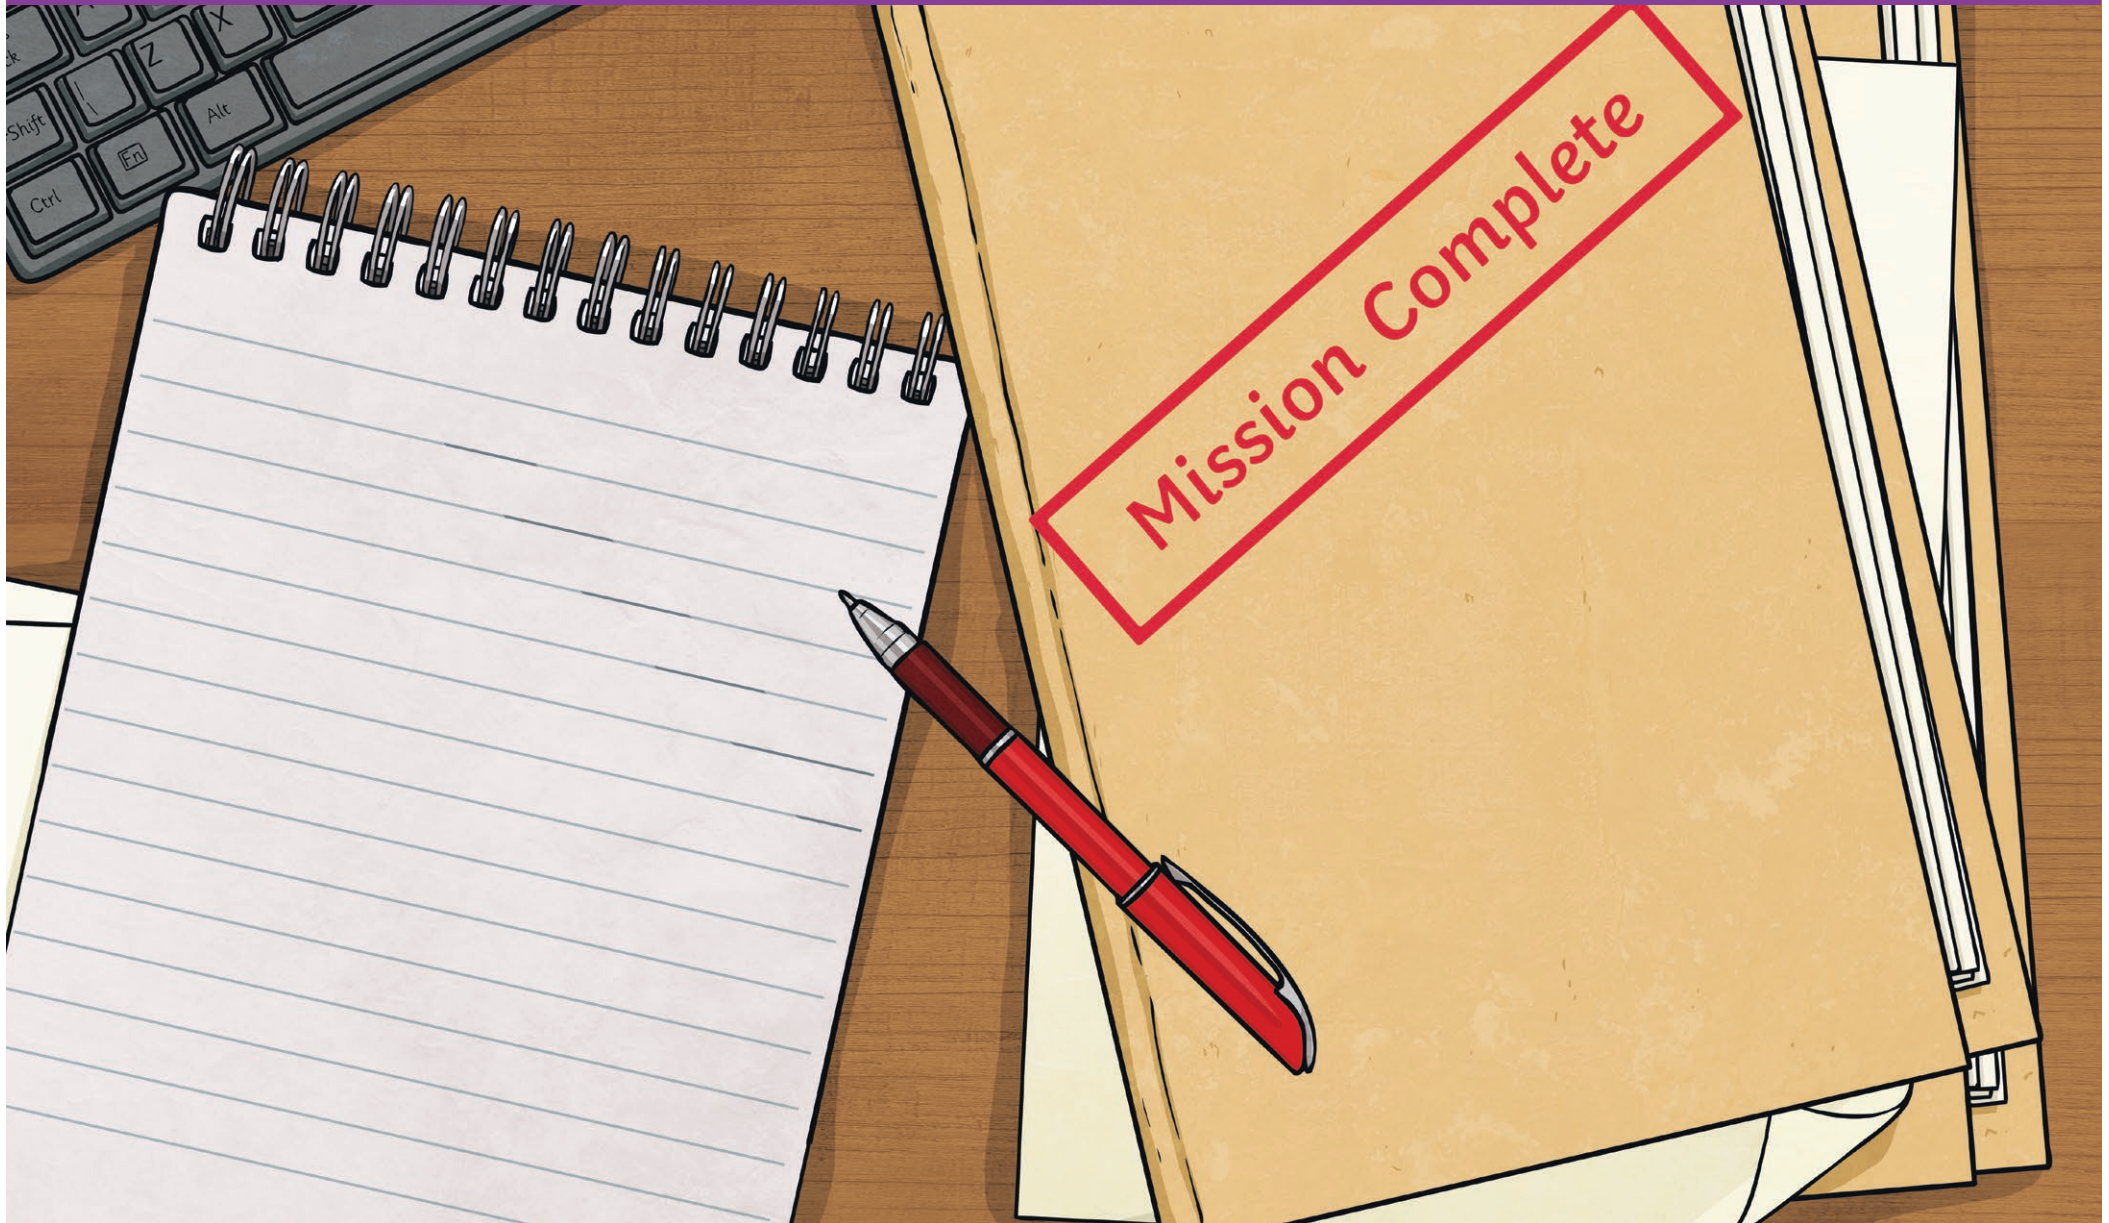

What are the astronauts saying as the rocket is being launched?

The crew of the space flight have been given a rather unusual and top secret mission. What is it?

Astronomers decide what to name everything that they discover in the universe.  
What would you name seven new stars?

What might be one of the latest news stories from space?

Some of the foods that astronauts have to eat in space are nicer than others! Fill in the labels on the packets to show why the astronauts might have left these foods until last.

The NASA Deep Space Explorer craft has visited a new planet and sent a report back to Earth.  
What did they find?
