

## Computing Home Learning

### **Can you be a detective?**

We know that a computer or remote-control toy may need to be plugged in or have a battery in it to make it work. Can you be a detective? Go on a hunt around your house and see how many things you can find that need to be plugged in or need batteries to make them work? Can you draw and label what you find?

### **Countries around the World**

Can you think of country that you would like to visit one day?  
Can you use a search engine to find out what animals and plants live in that country and then draw and label them?

Remember our e-safety rules and never use a phone, tablet or computer without asking a grown up. We would suggest using a child friendly search engine such as:

[www.kiddle.co/](http://www.kiddle.co/)

### **Purple Mash Activity - Can you make your own e-story book?**

Login to Purple Mash: On the home page select **TOOLS** then **2createastory** then **My story**. You can either choose to re-tell a story you know or make up your own story.

Draw your first picture and if you can type a sentence to go with it at the bottom.

Then click on the purple arrow bottom right to turn the page.

Remember to save your story in case you don't have time to finish it!

If you need any help, you can click on this symbol top right for help videos.
