

## History: Explorers

<b>Neil Armstrong</b>	<p>For our explorers topic we look at significant people nationally or globally from the past. Two in particular are Neil Armstrong and Scott of Antarctica.</p>
<b>The Moon Landing 1969</b>	<p>This gives the chance for children to look at events beyond living memory and make comparisons.</p> <p>Your child could make a fact file, or a poster, a time line or think of their own way of presenting something you find out about one or even both explorers. (You do not need to do both.)</p>
<b>Robert Falcon Scott.</b>	<p>Some great resources are  <a href="https://www.bbc.co.uk/bitesize/topics/zjwvb82/articles/zhx4k2p">https://www.bbc.co.uk/bitesize/topics/zjwvb82/articles/zhx4k2p</a>          ( Neil Armstrong.)</p>
<b>Expedition to Antarctica 1912</b>	<p><a href="http://www.sciencekids.co.nz/vidoes/space/moonlandinghtml">http://www.sciencekids.co.nz/vidoes/space/moonlandinghtml</a></p> <p>This gives an idea of the fuzzy black and white television people would have been huddled round to watch.</p> <p>Twinkl for super powerpoints, sequencing activities and information on both explorers.</p> <p><a href="https://www.kiddl.co/">https://www.kiddl.co/</a> for research.</p> <p>Obviously always considering E-safety.</p> <p>Talk with your child about why these explorations were important then and for us today.</p> <p>Can you make a time line with the two explorers on, perhaps with other members of the family and when they were born?          Then maybe a modern day explorer like Tim Peake, so that they can see how long ago these events happened!</p>
